

# Explore It TOGETHER

## LOTS OF QUESTIONS

 **John 20:24-29** Jesus appears to Thomas

Here are some ideas and activities you could do as a family

### Play

Fill a bag with items that have different shapes and textures. Pass the bag around to other people in your family and see if they can guess what the things are without looking. They can ask questions and you can answer yes or no to help them guess.

### Discover

Grab some binoculars and go out for a walk. First with your eyes, look at things that are far in the distance. Then use your binoculars to see them more clearly. Think about faith and the Holy Spirit being like the binoculars. They help us see things and do things that on our own are impossible.

### Share

Create a space for a 'questions board' in your home. Whenever anyone has a question to talk about, you write it on the board. Then have a special time each week to sit together and share the questions and answers.

### Play

Create an obstacle course either inside or outside. Blindfold a person and they have to get through the course without touching any of the obstacles. They cannot see, but they have to trust you and believe you will guide them though by what you say.

### Watch

Watch the film *Inside Out* and then spend some time at the end talking about the different emotions and whether you have experienced any of these.
